

Corporate Profile

UVT - Union Vector Technologies Sdn Bhd

Overview

Union Vector Technologies (UVT) is an IT based company formed in 2004 operating from its headquarters in Malaysia with a branch in Singapore. UVT offers various products and services relating to Mobile and Internet technologies focusing on mobile messaging, mobile solutions and content related services.

Products and Services

Short Message Services

UVT provides SMS gateways, telecom operators, integrators and end-users with easy-to-use tools to facilitate their messaging workflow. SMS services are namely International SMS Gateway, Enterprise Messaging and Premium SMS.

International SMS Gateway

Being one of the largest Bulk SMS service provider in Asia, UVT covers termination in over 200 countries or 800 GSM networks worldwide featuring text and binary forms along with flexible customization facilities offered to suit client's needs. UVT highly prioritizes technology infrastructure to allow high quality performance.

Enterprise Messaging

Enterprise Messaging allows messages to be sent via a variety of mechanisms including fax, email and mobile. This service best suits clients who wish to send larger volumes of messages.

Premium SMS

With the rapid growth and increasing accessibility of technology mobile users rely heavily on their mobile phones, such as bill payments, logo or ring tone purchases and SMS voting. UVT also provides MT (Mobile Terminated) services, where messages are sent from our customized business application to the desired mobile handsets.

Internet Services

UVT provides custom made solutions to suit business needs and demands. One of the latest internet service launched was Mobile Portal (Dinosms.de) in conjunction with Message People GmbH.

Mobile Portal - Dinosms.de

A new community portal concept that allows Internet users to send free SMS and download free contents for their mobile phones after a simple registration process done online. Members automatically receive 30 free SMS credits per month, and can earn extra credits by filling out online surveys.

Other Services

UVT understand mobile user needs and can provide services such as bill payments, logo or ring tone purchase and SMS voting. UVT also provides other services including:

- Infrastructure Consultation
- Mobile Business Consultation
- International Mobile Charging Gateway
- International Mobile Messaging Gateway
- Mobile and Internet Solutions
- Mobile Campaign Manager
- WAP / xHTML Services
- Office Automation
- Hosting and operational maintenance
